

Smile News...

Christmas has come and gone by so fast this year but it gave us an opportunity to count our blessings for our wonderful patients and a wonderful staff. We enjoyed getting lots of beautiful Christmas cards and treats from our dear patients.

We are faced with sadness and happiness all as the New Year begins. Rebekah will be leaving our dental family to join her husband at Eglin Air Force Base. We will miss her greatly and wish her the best in her future plans. On a good note, we are excited for Diane who will be getting married this April to the love of her life. It has been very sweet to share in the excitement and plans of her wedding day...we can't wait!

We have been busy preparing to come back in full swing starting January 2010 with rested hands and a rested mind. Dr. Sidor will be starting a very extensive continuing education program in June. The program will be held in Gainesville and will be over the course of two and a half years. He is excited about staying current with the most recent technology and procedures in dentistry.

Many of you will have new insurance information for the New Year. We are happy to help with gathering your insurance benefit information to better serve you. We hope that it will help offer a better understanding to you of what your plan covers.

As always, we appreciate the opportunity to be your dental health providers and welcome your family and friend's referrals.

Welcome 2010
